

Get digital technology working for you and your business

Digital technology is easy to use, accessible and very affordable.

With so many options to choose from, we can show you the best digital business solutions to help you drive up sales and profitability.

By registering to be part of the digital development programme at Digital.Support@bizlincolnshire.com you can have access to expert and impartial tailored advice which provides the following 3 options:

1. An extensive schedule of workshops on various topics and 1:1 support.
2. £1000 grant towards implementing digital technology into your business process.
3. Use of 3 Lincolnshire Technology Hubs equipment and facilities to solve a manufacturing problem or prototype a new product.

Contact the Digital Team at the Business Lincolnshire Growth Hub for more information, or contact **Stuart McFarlane** at **Stuart.McFarlane@bizlincolnshire.com** or phone **07714 309483**

Business Lincolnshire Growth Hub

Small and medium-sized businesses in Lincolnshire can access free expert advice and grants to grow their business after a £5million cash injection into the county's Business Lincolnshire Growth Hub.

Funding has been secured by Lincolnshire County Council from the European Regional Development Fund for a three-year programme to boost local economic growth and create jobs across the county.

The programme is designed to help businesses:

- Understand their current business position and the basic pillars needed to support their growth in the future
- Get their business 'investment ready' and access finance for growth
- Save energy, reduce waste and become more resource efficient
- Manage supply chains more effectively and access new supply chains
- Understand how to implement digital technology within their business
- Have access to grant funding for business activities

Whatever the needs of your business, a Growth Hub Adviser can help you to develop a tailored action plan to move your ideas forwards, directing you to the right sources of further help.
